

CANDIDATE TO THE BOARD

Full Name*: Alexandre DUFRESNE DE SAINT-LEON

Nationality*: French

Children's Class*: 5eme, CE2 and MS (next year)

Experience/Areas of Expertise*:

I was a student at FIS in 1993 - 1995, before studying philosophy in Paris. Since 1999, I have held several senior positions in a leading global research company. I have worked in Paris, Mexico, Switzerland, Brazil and Hong Kong, leading teams and managing businesses at a local, regional and global level. I have developed expertise and gained experience supporting organizations to gain a deep and precise understanding of their environment, to develop the best strategy to achieve their goals and engage all stakeholders during execution. As a CEO of the local subsidiary in Brazil, I have also gained experience leading teams into significant transformations while going through major economic turmoil. I am also used to leading with different cultures, listening to different point of view and reaching a consensus within a team.

What I hope to bring to the Board of Directors* (12 lines max.):

I believe the current context at FIS will require a team able to listen to all parents and bring our community back together to define the best strategy for the development of the school. My past experience as a student at FIS, current role as a parent and my professional and cultural background are strong assets I intend to bring to the board and work with the team for the benefit of our kids.
