

Ian Brodie

IT Consultant to French SME's in Hong Kong

# IT ALONE IS NOT THE ANSWER

A drop in performance

A change in habits

IT solutions only confirm what is suspected

YOU WILL ALWAYS BE ONE STEP BEHIND

Constantly trying to catch-up

Constantly adapting your solution

# BASIC SOLUTIONS

Navigation history

Restrict usage

Survey what is being used

# NEXT STEPS

Individual password protected accounts

Logon times

Automatic switch off

Know what the tendencies are

# MOBILE PHONES & MESSAGING APPS

Facebook, Messenger, WhatsApp, Viber  
(WeChat)

Point to Point Encryption

Phones are personal items

# Phishing

Fraudulent data collection for financial gain

Emails, websites, apps

Now targeting younger generations

# ALL IS NOT LOST

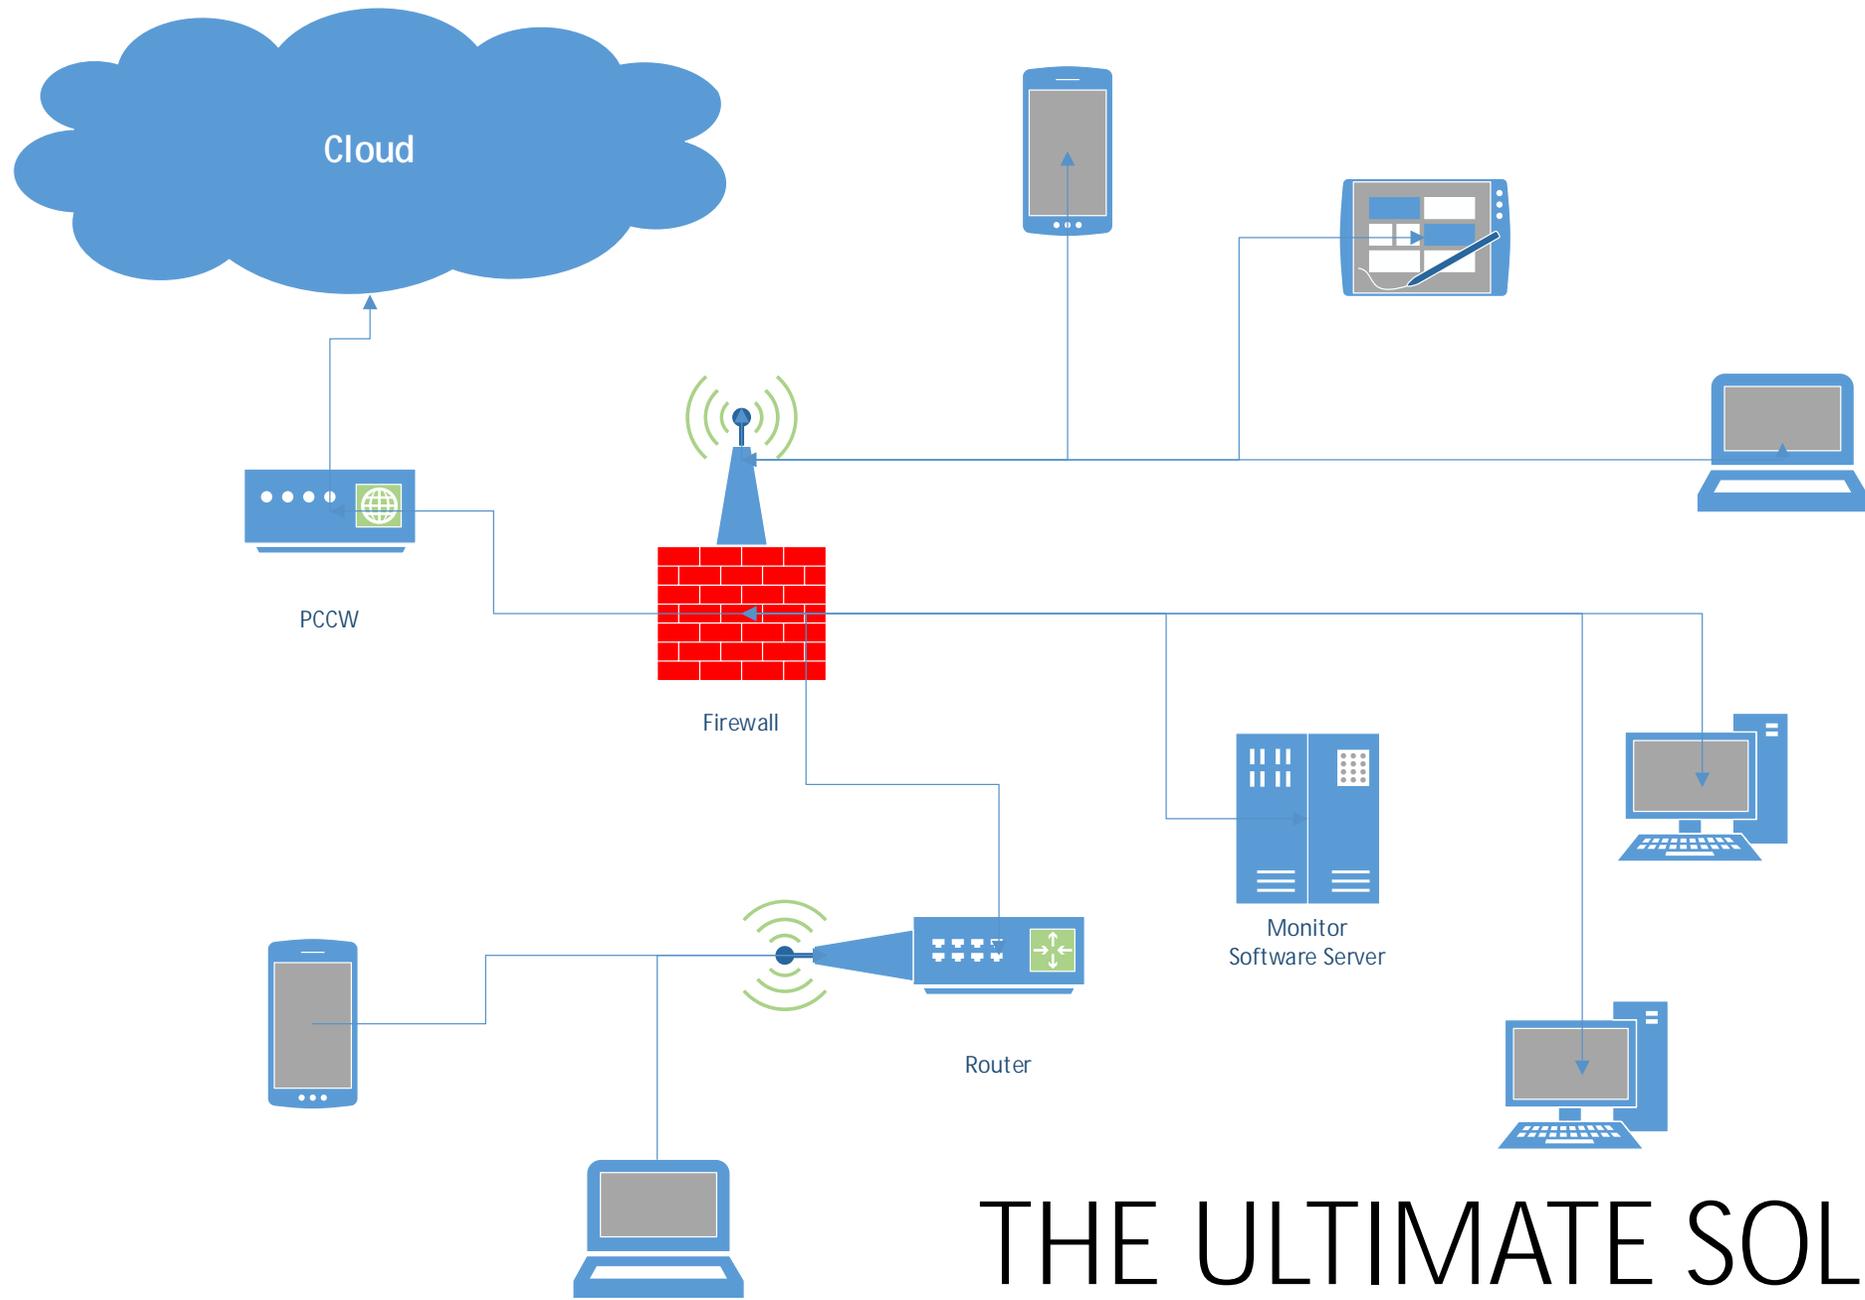

Monitoring Software

Follow all actions on a computer

Allows to see what websites visited

And for how long

But not on phones

THE ULTIMATE SOLUTION

# CONCLUSIONS

IT solutions do not replace a watchful eye

You will always be playing catch up

Impose basic controls and rules

(or complex ones if you can)

Follow tendencies

IT is not rocket science
