What I hope to bring to the Board of Directors* (12 lines max.):

- I am one of the parents involved in LFI Action.
- The core questions for FIS today are:
 - o How to define excellence and give every child the tools that he or she needs to achieve his/her personal goal?
 - o How to implement sustainable management procedures and balance of power, in the school governance?
 - o How to bring our community made of parents, teachers, school administration and students together, and align on a common objective?
- My 28 years of professional experience in Operations and project management will help to define a clear roadmap with check points and transparent feedback, once we agree on our vision for FIS.
- This is a challenge I am willing to take with you and other elected Board members, with mutual respect and constructive listening.
