

CANDIDATE TO THE BOARD

Full Name*: Samuel FAVEUR

Nationality*: French

Children's Class*: 6eme and CM2

Experience/Areas of Expertise*:

I have been living in Hong Kong since 2003. As professional experience, I have been working in the financial sector and currently manage my own financial advisory company with offices in Hong Kong and London. I also created a trading distribution company in China.

My professional experience gives me strong expertise in financial planning and corporate development as well as a strong understanding in structuring, governance and regulatory issues. With my recent involvement in LFI Action, I also deep dived into the school structure and have, I believe, identified some of the school's inner problems.

What I hope to bring to the Board of Directors* (12 lines max.):

I hope to bring to the Board my experience of corporate development and financial expertise to facilitate the upcoming reforms. As founder of several companies and advising regularly companies on strategy and development, I have the experience of how structures need to evolve and how critical those changes are for a company to succeed.

In particular, I hope to participate in the governance reform to revamp the current institutions aiming for stability, transparency and the right balance of powers between all actors.

I can also bring my legal and regulatory experience in dealing with multiple regulatory bodies. I am used to lengthy painful processes with regulators and legal teams. Dedication and thorough follow ups are crucial for these to succeed.
